

Do you need better WYSIWYG text editor for Joomla?

Try JCE text editor - it's free and loaded with features. JCE makes creating and editing Joomla!® content easy. JCE adds you a set of tools to your Joomla!® environment that give you the power to create the kind of content you want, without limitations, and without needing to know or learn HTML, XHTML, CSS etc.

- Office-like functions and familiar buttons make formatting simple
- Upload, rename, delete, cut/copy/paste images and insert them into your articles using an intuitive and familiar interface
 - Create Links to other Sections, Categories, Articles, Weblinks and Contacts¹ in your site using a unique and practical Link Browser
 - Take control of your code with syntax highlighting in the Advanced Code editor and advanced style and element attribute editing
 - Integrated Spellchecking using Google™ Spellchecker (or PSpell and ASpell)

JCE is free

JCE is released under the GNU/GPL licence (the same as Joomla!®) and the core system, the Administration Component and Editor Plugin, are available immediately and without charge. Access to additional plugins is granted with the purchase of a JCE Subscription.
